INTRODUCTION

Welcome to BEcryptoVIP.

Are you one of those who are waiting for the widespread adoption of cryptocurrencies in your daily life?

The ability to withdraw cryptocurrencies to cash almost instantly and without high transaction fees? Is the implementation of direct cryptocurrency payments for goods and services?

There are 300 million cryptocurrency users worldwide, and their use is growing every year. The digital world is evolving rapidly, and connecting to the physical world is becoming increasingly important. In response to these changes, we are introducing BEcryptoVIP, the world's first NFT-based VIP club for cryptocurrency enthusiasts. Membership in the club reduces transaction fees associated with cryptocurrency exchanges and provides access to tools to help you use them wisely.

The BEcryptoVIP club offers members access to exclusive services in the partner network that can be purchased with cryptocurrencies.

In addition, as part of our partnership with the largest international network of physical cryptocurrency exchanges - Kanga, Club members receive discounts for trading cryptocurrencies on exchanges around the world. A dedicated Proof-of-Stake account where you can earn commissions generated by AirDance EXCHANGE by participating in the liquidity pool.

At the heart of the entire ecosystem is the \$BE token and NFT collection serving as an entry card to the BEcryptoVIP Club community.

WHO IS BECRYPTOVIP MEMBERSHIP FOR?

BEcryptoVIP is for people for whom cryptocurrencies are part of their lives. With membership in the club, they can also become a part of their daily lives.

WHO IS THE MEMBERSHIP FOR?

For those who value investing in cryptocurrencies:

- Up to 60% discount on fiat <-> cryptocurrency trading on exchanges around the world,

- Participation in the AirDance EXCHANGE Operational PoS Liquidity Pool

- Make your trading process faster and easier with a fully automated OTC tool

For those who love freedom, travel and convenience:

- A personal assistant for your needs in the areas of travel, entertainment and daily life.

For everyday people who want to pay with cryptocurrencies:

- Access to exclusive offers, discounts and cryptocurrency payment features from our partners.

For those who celebrate life:

- Access to various partner events

- BEcryptoVIP also offers events specifically for club members.

We want people to have more and be able to do more with their crypto wallets, enjoying life and anything it could give.

HOW TO BECOME A MEMBER?

NFT can be purchased with \$BE tokens, only at becryptovip.io. You can choose NFT within one of the six available collections, which define the level of membership and possible benefits.

For \$BE token holders, an important note is that up to their 95% spent on the purchase of NFTs will be burned forever, and 5% will be transferred to the PoS tool to be used for profit sharing among all \$BE holders.

MISSION

We are working hard to make trading on cryptocurrency exchanges safer, easier and more enjoyable, providing cryptocurrency holders with the additional benefits that BEcryptoVIP membership can provide. We believe that blockchain is a forward-looking technology that gives us the opportunity to invest in promising business projects. Our mission is to accelerate the adoption of cryptocurrencies into everyday life by providing a wide range of services and experiences for club members.

VISION

Our vision is a reality where using a cryptocurrency wallet is simple and hassle-free for everyone. Not only for those who need to exchange large amounts of cash for virtual currency, but also for those who want to buy goods and services with virtual currency. We want more people to own a cryptocurrency wallet, do more, enjoy life and all it has to offer.

\$BE TOKEN UTILITY

The BEcryptoVIP token ecosystem consists of \$BE and NFT tokens, which are, in their essence, entrances to the exclusive BEcryptoVIP club. We designed their functionalities in such a way that they complement and intertwine with each other. This is how they are shaped for \$BE tokens:

- 1) The primary utility of \$BE tokens is their payment function in the internal BEcryptoVIP ecosystem. The \$BE tokens are primarily a gateway to purchasing NFTs that allow you to participate in the BEcryptoVIP club.
- 2) You can sell the tokens you don't use to purchase NFTs on the secondary market or stake them, receiving more \$BE tokens as a reward.
- 3) Rewards from staking are derived from the deflationary nature of \$BE tokens. 5% of the tokens used to purchase NFT will be distributed through the Kanga PoS tool for reuse.
- 4) The remaining 95% of the \$BE tokens with which NFTs will be purchased are destined to be burned. In this way, we drastically reduce the available supply of tokens on the market.

\$BE tokens can be purchased through Initial Exchange Offering on the Kanga Exchange and on becryptovip.io. Staking of \$BE tokens is done on the Kanga Exchange using the Kanga PoS tool.

AIRDANCE EXCHANGE OPERATING POS

AirDance EXCHANGE is the largest international network of stationary cryptocurrency exchange offices operating in close cooperation with Kanga Exchange. In 18 months of operation, the AirDance EXCHANGE + Kanga Exchange network has grown to more than 350 outlets recording millions of dollars in turnover.

The opportunity to participate in the liquidity pool of the is a benefit reserved exclusively for members of the BEcryptoVIP club. AirDance EXCHANGE Operating PoS works on the basis of participants providing liquidity in stablecoins to AirDance EXCHANGE. In return, they are given the right to receive a portion of the commission on executed transactions. BEcryptoVIP club members participate in the distribution of the AirDance EXCHANGE Operating PoS prize pool on a preferential basis.

AirDance EXCHANGE transfers 1% of the commission on the value of each transaction to the Operating PoS, regardless of the amount of funds collected on it. The process is fully automated. The rewards are accumulated in the Operational PoS and distributed collectively to its participants each day in proportion to the number of a participant's share of the liquidity pool for that day. BEcryptoVIP Club members will also receive some extra rewards.

The AirDance EXCHANGE Operating PoS has been in operation since May 15, 2022 on the Kanga Exchange. The stablecoin currently used in the Operational PoS is omegaPLN, the Kanga Exchange's native stablecoin. As of the date of this document, the APY worked out in the model described above has fluctuated between 30-85% depending on the day. With the continued expansion of AirDance EXCHANGE, we look forward to further record results.

TOKENOMICS

Name: BEcryptoVIP token

Ticker: \$BE

Blockchain: Ethereum

Contract address: 0xdfE1B517b3B591D9de5D5F945233D013c455E3b1

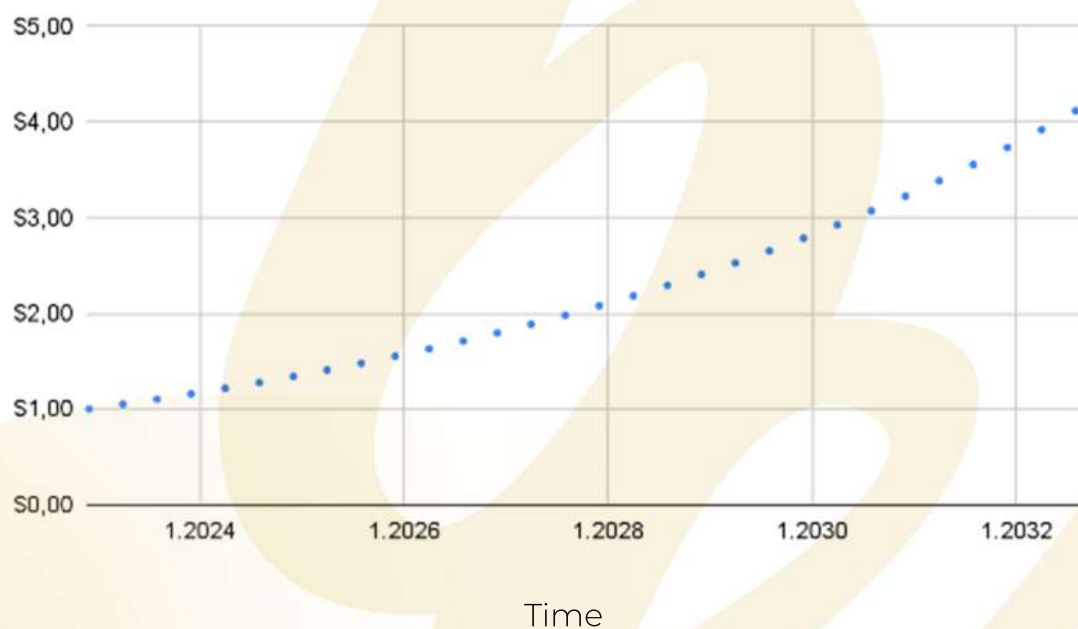

Price at IEO: \$1

Initial supply \$3,333,333BE

Max supply: \$99,999,990 \$BE

Number of planned rounds: 30 (three per year for 10 years)

ROUND \$BE TOKEN

DISTRIBUTION OF TOKENS

The supply of \$BE is 99,999,990 tokens. 100% of the tokens are targeted for sale over 10 years.

Equitable distribution of tokens is a priority for us, which is why we have abandoned the free allocation of \$BE to founders and teams. For the same reason, we do not conduct private sale rounds at discounted prices. The rules for changing the price over time are known to everyone from the very beginning. Nevertheless, in our opinion, early adopters deserve correspondingly better terms, hence the increasing price over the years.

Since \$BE is a service token, failure to sell all the tokens does not jeopardize the project or the token's valuation. Any unsold tokens will be allocated in the company's vault. We will use the tokens accumulated in the vault to cover needs for liquidity provision, marketing collaborations or partnerships.

Our overriding goal is to make \$BE tokens immediately usable. Therefore, we have refrained from introducing vesting and other mechanisms that impede the use of tokens.

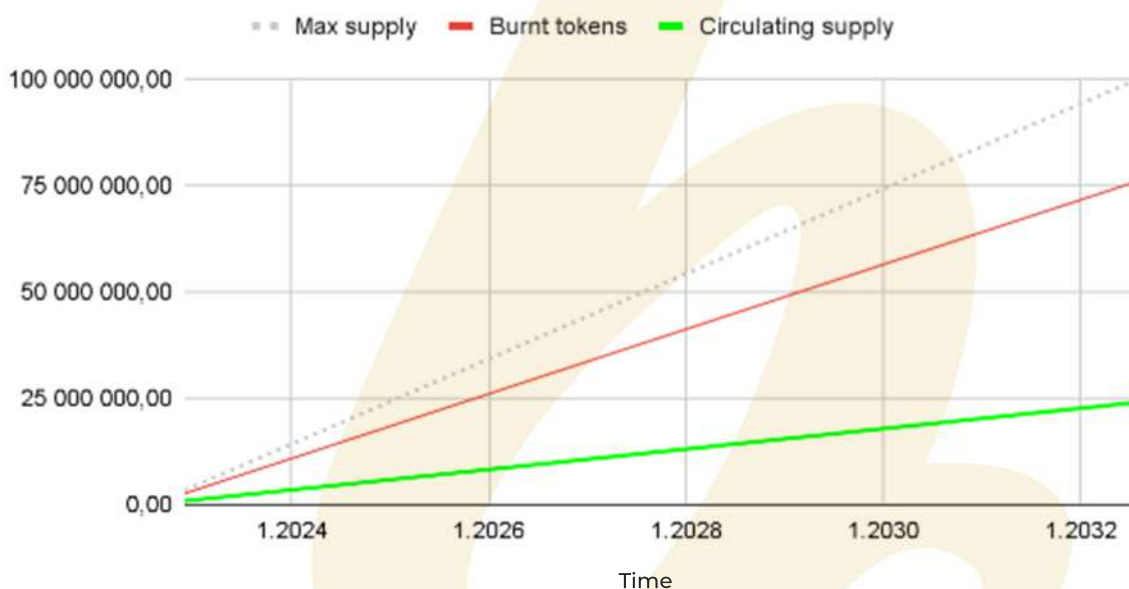

ALLOCATION OF FUNDS

Part of the funds raised from the sale of \$BE tokens will be used to cover the costs of the ventures listed in the roadmap. However, tokens should not be treated as traditional capital raising for the cryptocurrency world.

The \$BE tokens function primarily as a gateway to purchase admission tickets (in the form of NFTs) to an exclusive club that allows its members to save millions of dollars in commissions on large-scale transactions.

In addition, part of the funds will be used to provide liquidity to the token market.

\$BE TOKEN SUPPLY

*The \$BE token supply assuming that 100% of the tokens will be sold, and then 80% of them will be used to purchase NFT.

NFT OF THE BECRYPTOVIP CLUB

For those who become members of the BEcryptoVIP club by purchasing NFTs, we have prepared a special offer. We have divided the NFTs themselves into six collections, each with a different entry threshold and different benefits. A club member's rank depends on the collection to which the highest-value NFT he or she owns belongs.

The benefits of membership in the elite BEcryptoVIP club are as follows:

- 1) a significant reduction in the cost of exchanging at cryptocurrency exchange offices belonging to BEcryptoVIP and club partners,
- 2) access to BEcryptoVIP concierge services,
- 3) access to exclusive offers and events organized by the club and its partners,
- 4) the opportunity to participate in the liquidity pool.

	Whales	Sharks	Dolphins	Fish	Octopuses	Crabs
Membership price	\$100k	\$50k	\$10k	\$5k	\$3k	\$1k
Crypto Exchange Discounts	60%	30%	15%	✗	✗	✗

Concierge BEcryptoVIP	✓	✓	✓	✗	✗	✗
Earning on Liquidity Pool	✓	✓	✓	✓	✓	✓
Available slot for allocation in PoS	up to \$1 mln	up to \$500k	up to \$100k	up to \$50k	up to \$30k	up to \$10k
Special offers and events	✓	✓	✗	✗	✗	✗
Term of membership	365 days	365 days	365 days	Unlimited	Unlimited	Unlimited

The specific benefits associated with having a level in the BEcryptoVIP club are described in the table below:

NFTs of the BeCrypto VIP club can be purchased at becryptovip.io by exchanging a number of \$BE tokens depending on the current token price.

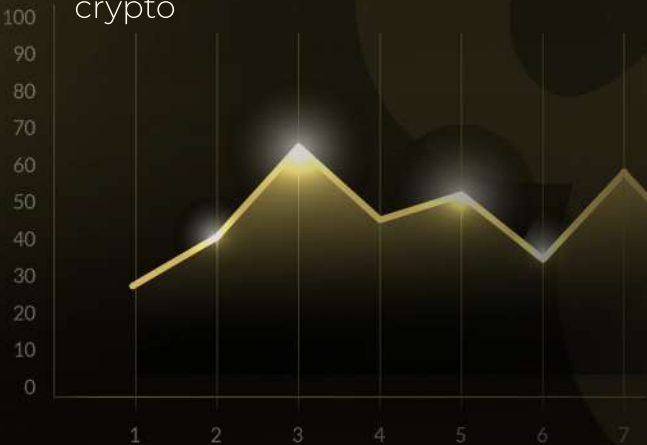

PARTNERSHIPS

BEcryptoVIP functioning is enabled by strategic partnerships with:

AIRDANCE EXCHANGE – one of the fastest growing international network of crypto exchange offices backed by Kanga Exchange and its Kanga Local service, i.e. the possibility of making transactions with natural persons, ready to buy and sell cryptocurrencies for cash:

KANGA EXCHANGE – platform providing OTC tools to conduct any operations in crypto

WATCHCOLLECTIONS.IO – online and physical store with luxury watches, bags and jewelry which could be bought for crypto

WATCH • COLLECTIONS

Emmar, CityStar, Palma Holding, Damac – real estate companies in Dubai, which are ready to offer great deals for our members

PALMA™
LIVE EXCEPTIONAL

DAMAC

- and many others.

Partnerships with other providers of services and goods in travel, entertainment and other industries will be presented on later stages.
