INTRODUCTION

Did you ever have a feeling that you would like to have more with your crypto wallet? To engage in safe investment mechanism, to receive cash almost instantly and without high transaction fees, to pay with your crypto for goods and services, to have personal assistant who would treat your requests carefully and effectively?

Welcome to BEcryptoVIP. In the world with 300 million crypto users worldwide, and where cryptocurrency adoption is growing annually, the connection of the digital and physical worlds becomes more vital. BEcryptoVIP is the first in the world NFT-based VIP club for crypto enthusiasts allowing to save on crypto exchange transactions and earn crypto thanks to the innovative investment tools. Basing on the largest international network of physical crypto exchange points and being an operator of the Kanga Exchange, the club members will be offered unprecedented privileges:

- discounts on crypto transactions of the exchange points worldwide,
- dedicated PoS account to earn on liquidity pool,
- personal assistant for any requests in travel, entertainment industries and everyday life.

Born from AirDance company and around the global network of AirDance Exchange points BEcryptoVIP is meant to increase crypto adoption through creation of NFT-based members only club to offer crypto enthusiasts access to exclusive forms of investment and services that may be bought for crypto.

In the heart of this ecosystem lies \$BE token and our NFT collections – keys to privileged community of BEcryptoVIP club, allowing to use our innovative OTC system and tools around the world, without KYC, and buying goods and services offered by our partners.

MISSION

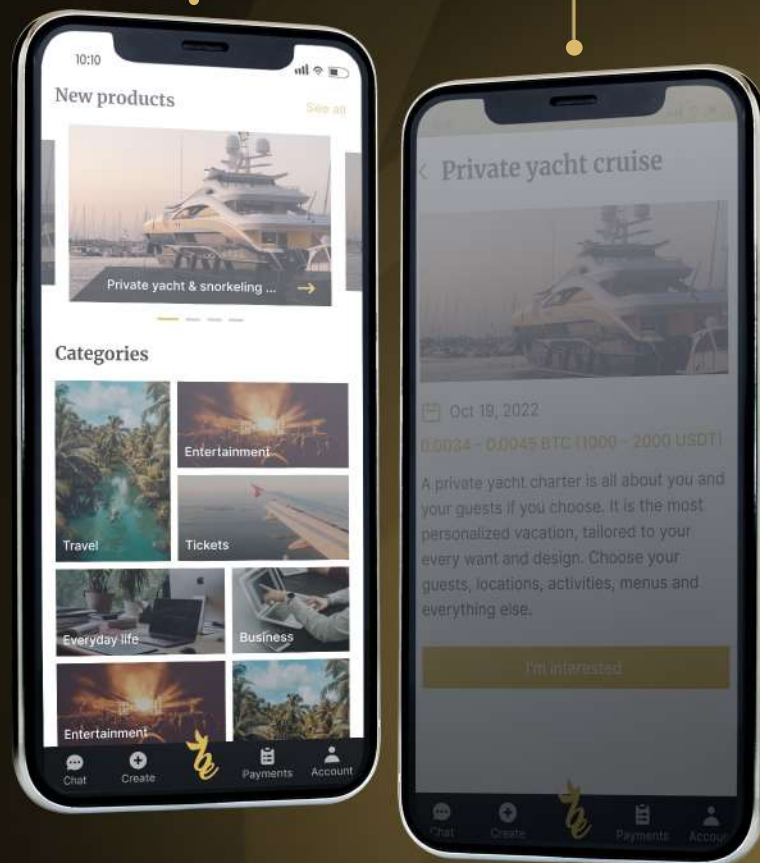

We would like to accelerate crypto adoption by making the crypto exchange transactions safer, easier, more pleasant, and by bringing additional privileges to crypto holders, which membership in BEcryptoVIP could give.

We believe that the blockchain is the most promising technology for this which gives the possibility to invest in promising business projects, and enables assets for them.

VISION

Our vision is that every person should easily and effortlessly use their crypto wallets. Not only those who have the necessity to exchange big amounts of cash for crypto and backwards, but also those who would like to buy goods and services for crypto. We want people to have more and be able to do more with their crypto wallets, celebrating life and enjoying anything it could give.

Scarcity + 5%

The launch of \$BE token will be made in 3 annual rounds within 10 years with the scarcity 5%, i.e. each subsequent round will increase the price of \$BE token by 5%.
The initial token supply for the first round is 3 333 333 \$BE.

\$BE token will be used to buy NFT membership in BEcryptoVIP club, and in the future to pay for the additional services and products offered by the club.

95% of the bought \$BE tokens will be forever burnt and 5% will be forwarded to POS tool to be used in profits share among \$BE holders. All \$BE holders, except for buying NFT, could also allocate them on dedicated PoS tool, and earn monthly on BEcryptoVIP transactions.

Thus, BEcryptoVIP members and \$BE holders will earn on:

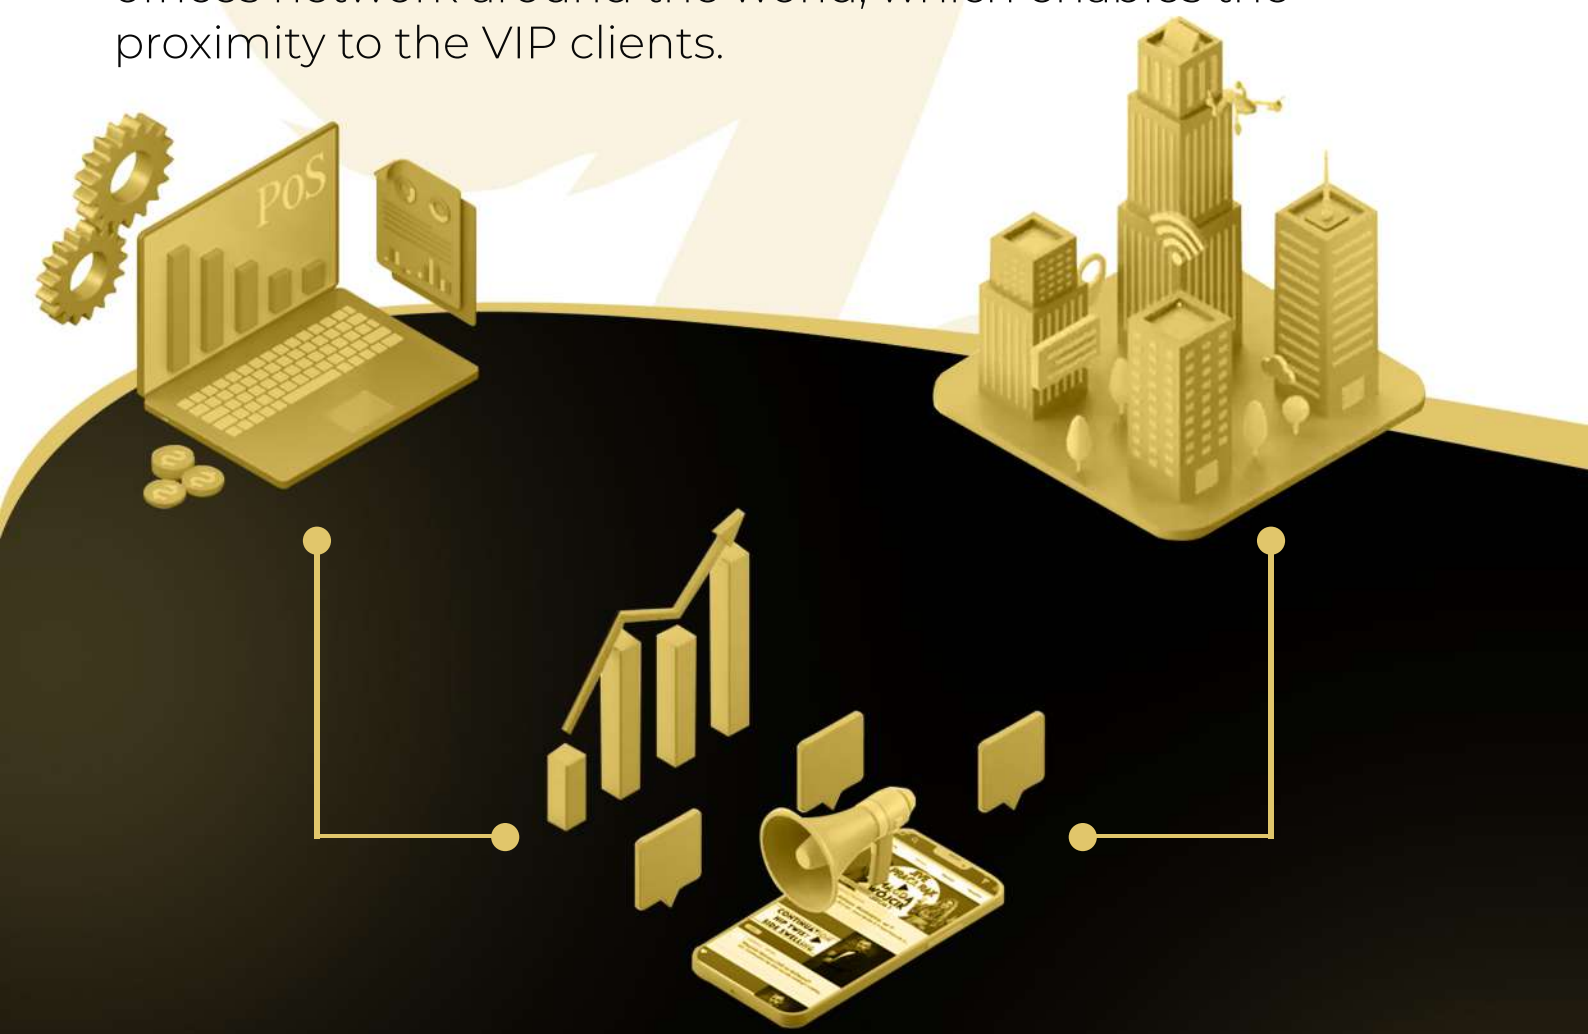

- 15-60% discounts for the exchange transactions within our physical exchange points (see simulation of savings here)
- Providing liquidity for a dedicated PoS in oPLN, based on Kanga Exchange network, with APY of up to 40%, which will be unlocked for members only
- Staking of \$BE tokens

Each \$BE holder, after transferring his/her \$BE to Kanga PoS, will be able to see the calculated reward daily. The reward pay out time is 100 days at a rate 1% per day.

BUSINESS MODEL

NFTs bought with  token entitles its holder to be a member of the BECryptoVIP loyalty program, as well as to earn on profits of AirDance Exchange and BECryptoVIP services and goods. In accordance with the respective legal provisions (Polish Civil Code, Act on Trading in Financial Instruments and Public Offering Act) \$BE token will not be covered by detailed requirements for trading in financial instruments, including for example offering, and therefore will not fulfill the characteristics of offering shares or bonds.

Our business model is based on using the exchange offices network around the world, which enables the proximity to the VIP clients.

We plan to attract 1k of BECryptoVIP club members within the first year from the date of launch with steady global annual expansion in terms of new physical exchange points, new club members and new partnerships.
